Subject: Fishing areas to protect from MLPA closure

Hello

Please do not create Marine Protected Areas where we pursue the joy of sport fishing.

Here are areas that should remain open to sport fishing, in order of priorities:

1. Catalina Island shoreline kelp beds, especially the back side West End to Ribbon Rock.
2. Mainland Palos Verdes shoreline kelp beds Palos Verdes Point to Point Fermin.
3. Santa Monica Bay off of Redondo Beach and Venice Beach, up to 360 feet in depth.

Sincerely,

Peter Winzen
